Wm Lloyd Garrison. <sup>20</sup>

Dear Friend, You will remember me. We corresponded in Sept. 1874. As Chairman of the Ohio State Prohibition Committee, I invited you to speak in our State. I inferred from the tone of your replies, that you cordially approved of our organization.

Now I am confident that every member of our party would be delighted to vote for you for President of the U.S. Will you accept this nomination if tendered to you by the National Prohibition Convention, to meet in Cleveland on next Wed. 17<sup>th</sup> inst? The time intervening is short, and an immediate answer is solicited.

With me and hundreds of others Woman Suffrage is the cardinal principle in our platform. Prohibition and a multitude of reforms will follow in its wake.

The old parties are tied to the Whiskey and Beer power. They must feel the power of a third party, before they will cut loose. Will you permit us to add another brightening tint to the beautiful halo that surrounds your name, by accepting this nomination? Your devoted friend, J. H. Coulter.

P.S. Hope for reply before I leave for Cleveland next Tuesday.
